

AI Lead Recovery System

Stop losing revenue to missed calls and cold leads.

THE PROBLEM

Missed calls, slow follow-up, and neglected leads can cost home service companies thousands per month. Your marketing may be doing its job, but revenue is lost when leads wait, go unanswered, or never get followed up with.

EXAMPLE LEAK

\$20,800/year

from just one missed \$400 job per week

WHO IT'S FOR

Owner-led home service companies ready to capture every lead — without hiring more staff.

Great fit: plumbing, HVAC, roofing, electrical, garage door, pest control, and lawn/landscape companies.

WHAT IT DOES

Five ways we recover revenue you're already losing.

01

Missed-Call Text-Back

Every missed call gets an instant text so the lead never goes cold.

02

Instant Web Response

New web leads get a reply in seconds, not hours.

03

Quote Follow-Up

Automated nudges on open estimates until they decide.

04

Review Requests

Happy customers are asked at the right moment, automatically.

05

Lead Reactivation

Old leads and past customers get warmed back up on autopilot.

HOW IT WORKS

Simple to launch. Built around your business.

1

Set Up

We map your lead sources, calls, and follow-up gaps in a quick kickoff.

2

Activate

We deploy the recovery workflows on your numbers and web forms.

3

Recover

Leads get responded to instantly — day, night, and weekends.

MONTHLY REPORTING INCLUDED

See exactly what was recovered.

Every month you get a clear report: calls captured, leads responded to, quotes followed up, reviews collected, and revenue reactivated. No guesswork.
